## Who is Easyski Systems?

The Easyski System Ski slope is a unique skiing experience which allows its participants to ski in their own safe environment. The slope which is fully portable is housed on the back of a truck and unfolds using a unique patent pending hydraulic system to reveal a high quality slope perfect for practicing basic ski techniques and drills. The exclusive system is the first of its kind in the world. All who have used the system are amazed by this exciting and extraordinary new way to introduce new participants to the snow sports industry. Easyski Systems provides all the necessary equipment, instruction and skills needed to create a successful snow sports event.

### Safety Is the Key.

- At Easyski Systems safety is always our number one priority because we want to make your Easyski experience one to remember for all the right reasons.
- All members of the Easyski team are fully qualified first aiders.
- We make sure that all our equipment is safety tested.
- We make sure everyone who wishes to use the slope has the ability to participate.
- We also provide public liability for all events.

### How can you use Easyski Systems at your event?

- Promotions of winter clothing brands, ski clubs and ski slopes.
- Showcase new sporting equipment.
- Corporate events and teambuilding.
- Public gatherings.
- Introducing sport to those who might otherwise not have the opportunity to participate.
- Can be used by all ages as we provide not only ski instruction but also tubing.

## Corporate Sponsorship

Because of the individuality of the portable ski slope it is the perfect mechanism for effective marketing. The slope is eye catching and always attracts public attention, people approach to ask questions, watch and find out more about the slope. Also since the Easyski Systems team are constantly introducing new people to the world of snow sports it's the ideal way to be the first to introduce your brand to budding skiers.

## What we need from you?

- We require someone to be the main point of contact and they must supply a name, address, email and contact number.
- Enough space to manoeuvre the truck into place 20mx20m.
- Permission to use the land on which the slope will sit.
- We require a footprint of 12m x12m to accommodate the slope when unfolded.

## Hire Us Today

- Our basic ski package lasts for 4 hours and includes ski equipment hire and ski instruction.
  - We have a choice of school packages available to introduce pupils to snow sports.
  - Phone a member of the team who will assist you in planning your event.
- Tel: 0141-563-0515 Mob: 07802789065
